

COVID-19 Safety Guidelines

On arrival, parents and children must wear a face mask, according to recent government guidelines.

We will do a digital temperature check on children - if the temperature is above the government guidelines, we will ask the child to return home safely with their parents.

Before attending the ICM academy, all participants, officials, volunteers and spectators should self-assess for symptoms of Coronavirus i.e. via self testing with lateral flow tests, as recommended by government guide lines.

Should NOT attend the academy in case of the following:

- High temperature
- Continuous cough
- Loss of, or change to, your sense of smell or taste
